PROFILE

Experienced full-stack developer with 1.5 years of hands-on expertise in designing, developing, and deploying web applications. Proficient in front-end and back-end technologies, adept at collaborating within agile teams to deliver high-quality solutions. Skilled in problem-solving and maintaining a strong focus on scalability and performance, ensuring optimal user experiences. Possesses a solid foundation in software engineering principles and a passion for continuous learning and innovation.

WORK EXPERIENCE

Full-Stack Developer

Effectual Services   Nov 2023 - Present

Global Legal Association- (web & CRM)

- Designed and implemented RESTful APIs for efficient communication between frontend and backend systems.
- Utilized TypeScript to ensure code quality, maintainability, and scalability across the stack.
- Implemented authentication and authorization mechanisms to secure endpoints and protect user data.
- Optimized application performance through database query optimization, caching strategies, and code refactoring.
- Provided technical support and troubleshooting assistance to resolve issues reported by users or stakeholders.
- Designed and integrated payment gateway solutions to facilitate secure and seamless transactions.
- Implemented payment processing logic and handled transactional data securely within the application.
- Deployed project on EC2 with Nginx for efficient hosting.

Full-Stack Developer

Apoliums Infotech India Private Limited   Nov 2022 - Nov 2023

SetuFi -(Admin & User Portal)

- Developed a comprehensive caseflow management system utilizing React.js for the frontend and Nest.js for the backend, leveraging TypeScript for enhanced code quality and maintainability.
- Designed and implemented a user-friendly interface using React.js and Tailwind CSS, ensuring a responsive and intuitive user experience for efficient case management.
- Engineered backend services for mobile app integration using TypeScript, enabling seamless communication and data synchronization between the web application and mobile platforms.
- Implemented scheduled tasks and automated processes using cron jobs to streamline administrative tasks and optimize system performance.
- Collaborated with stakeholders to gather requirements, define project scope, and prioritize features, ensuring alignment with business objectives and user needs..
